Awareness- Species at Risk

Alberta has a large number of “Species at Risk”.

In this activity you will choose one and complete a project about it. This project can take any form e.g. poster, brochure, report etc.

Whatever format you decide upon your project **MUST** it must include answers to **ALL** these questions (but not necessarily in this order) about the wildlife species you chose.

For **all Wildlife Species** you must include the following information:

1. Wildlife species' common name (1)
2. Wildlife species' scientific name (1)
3. An image of your wildlife species (1)
4. A description of the wildlife species including its variation in size colour and weight (4)
5. Wildlife species' habitat including rainfall, cover, sunshine etc. (3)
6. Distribution/range of your wildlife species **MUST INCLUDE A SHADED MAP** (2)
7. What adaptations does your wildlife species have to deal with Alberta's winter.(3)
8. The number of individuals/area remaining (1)
9. What factors have caused the wildlife species to become endangered (2)
10. What is being done to conserve the wildlife species (2)
11. What is the long-term future for the wildlife species (2)
12. 3 fun facts about the wildlife species not given in the other information. (3)

For *animals* you must include information on:

1. Social life (how it relates to other individuals of the same species) (2)
2. Competition/predation (How it relates to other wildlife species or humans) with other species (3)
3. Diet (1)

For *plants* you must include information on:

1. How it spreads (2)
2. Pollinators (2)
3. Animals that eat it (2)
4. Defences against being eaten (if any) (1)

Total (31) + (2) for presentation= **33**
